SAFETY DATA SHEET SAS50 BUTANE GAS CHARGER 200ML

According to the REACH etc. (Amendment etc.) (EU Exit) Regulations 2020 No. 1577, as amended.

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier		
Product name	SAS50 BUTANE GAS CHARGER 200ML	
Product number	000103079545	
1.2. Relevant identified uses of the substance or mixture and uses advised against		
Identified uses	Gas charger.	
Uses advised against	Use only for intended applications.	
1.3. Details of the supplier of the safety data sheet		
Supplier	VAN LINE LTD 1 HARKER WAY LEEDS WEST YORKSHIRE ENGLAND LS9 0DY +44 (0) 113 213 4300	

+44 (0) 113 868 1320

enquiries@workshopwarehouse.co.uk

1.4. Emergency telephone number

National emergency telephone Hazchem Line: 0044 (0) 7970 779978 number

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture		
Classification (SI 2019 No. 720)		
Physical hazards	Aerosol 1 - H222, H229	
Health hazards	Not Classified	
Environmental hazards	Not Classified	
2.2. Label elements		

Hazard pictograms

Signal word	Danger
Hazard statements	H222 Extremely flammable aerosol. H229 Pressurised container: may burst if heated.
Precautionary statements	 P102 Keep out of reach of children. P261 Avoid breathing vapour/ spray. P271 Use only outdoors or in a well-ventilated area. P501 Dispose of contents/ container in accordance with local regulations.

Supplementary precautionary	P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No		
statements	smoking.		
	P211 Do not spray on an open flame or other ignition source.		
	P251 Do not pierce or burn, even after use.		
	P410+P412 Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.		

2.3. Other hazards

This product does not contain any substances classified as PBT or vPvB.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

Petroleum gases, liquefied		60 - 100%
CAS number: 68476-85-7	EC number: 270-704-2	
Classification		
Flam. Gas 1A - H220		
Press. Gas (Liq.) - H280		

The Full Text for all R-Phrases and Hazard Statements are Displayed in Section 16.

SECTION 4: First aid measures

4.1. Description of first aid measures

General information	If in doubt, get medical attention promptly. Show this Safety Data Sheet to the medical personnel.	
Inhalation	Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Loosen tight clothing such as collar, tie or belt. Get medical attention if symptoms are severe or persist. Place unconscious person on their side in the recovery position and ensure breathing can take place.	
Ingestion	Rinse mouth thoroughly with water. If in doubt, get medical attention promptly. Due to the small packaging, the risk of ingestion is minimal. Do not induce vomiting unless under the direction of medical personnel.	
Skin contact	Remove contamination with soap and water or recognised skin cleansing agent.	
Eye contact	Remove any contact lenses and open eyelids wide apart. Rinse with water. Get medical attention if any discomfort continues.	
Protection of first aiders	First aid personnel should wear appropriate protective equipment during any rescue.	
4.2. Most important symptoms	and effects, both acute and delayed	
General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.	
Inhalation	Spray/mists may cause respiratory tract irritation.	
Ingestion	Due to the physical nature of this product, it is unlikely that ingestion will occur.	
Skin contact	Repeated exposure may cause skin dryness or cracking.	
Eye contact	Vapour or spray in the eyes may cause irritation and smarting. Particles in the eyes may cause irritation and smarting.	
4.3. Indication of any immediate medical attention and special treatment needed		
Specific treatments	Treat symptomatically.	

SECTION 5: Firefighting measures

5.1. Extinguishing media	
Suitable extinguishing media	The product is flammable. Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog.
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
5.2. Special hazards arising fro	om the substance or mixture
Specific hazards	Containers can burst violently or explode when heated, due to excessive pressure build-up. Bursting aerosol containers may be propelled from a fire at high speed. If aerosol cans are ruptured, care should be taken due to the rapid escape of the pressurised contents and propellant. Vapours may form explosive mixtures with air.
Hazardous combustion products	Thermal decomposition or combustion products may include the following substances: Toxic gases or vapours. Carbon monoxide (CO). Carbon dioxide (CO2).
5.3. Advice for firefighters	
Protective actions during firefighting	Avoid breathing fire gases or vapours. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. If a leak or spill has not ignited, use water spray to disperse vapours and protect men stopping the leak. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution occurs, notify appropriate authorities.
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Firefighter's clothing will provide a basic level of protection for chemical incidents.
SECTION 6: Accidental releas	
SECTION 0. Accidental releas	e measures
	e measures
6.1. Personal precautions, pro	tective equipment and emergency procedures Wear protective clothing as described in Section 8 of this safety data sheet. No action shall be taken without appropriate training or involving any personal risk. Evacuate area. Provide adequate ventilation. No smoking, sparks, flames or other sources of ignition near spillage. If aerosol cans are ruptured, care should be taken due to the rapid escape of the pressurised contents and propellant. Take precautionary measures against static discharges.
6.1. Personal precautions, pro Personal precautions	tective equipment and emergency procedures Wear protective clothing as described in Section 8 of this safety data sheet. No action shall be taken without appropriate training or involving any personal risk. Evacuate area. Provide adequate ventilation. No smoking, sparks, flames or other sources of ignition near spillage. If aerosol cans are ruptured, care should be taken due to the rapid escape of the pressurised contents and propellant. Take precautionary measures against static discharges.
6.1. Personal precautions, pro Personal precautions 6.2. Environmental precautions	 tective equipment and emergency procedures Wear protective clothing as described in Section 8 of this safety data sheet. No action shall be taken without appropriate training or involving any personal risk. Evacuate area. Provide adequate ventilation. No smoking, sparks, flames or other sources of ignition near spillage. If aerosol cans are ruptured, care should be taken due to the rapid escape of the pressurised contents and propellant. Take precautionary measures against static discharges. Avoid discharge into drains or watercourses or onto the ground. Not considered to be a significant hazard due to the small quantities used.
6.1. Personal precautions, pro Personal precautions 6.2. Environmental precautions Environmental precautions	 tective equipment and emergency procedures Wear protective clothing as described in Section 8 of this safety data sheet. No action shall be taken without appropriate training or involving any personal risk. Evacuate area. Provide adequate ventilation. No smoking, sparks, flames or other sources of ignition near spillage. If aerosol cans are ruptured, care should be taken due to the rapid escape of the pressurised contents and propellant. Take precautionary measures against static discharges. Avoid discharge into drains or watercourses or onto the ground. Not considered to be a significant hazard due to the small quantities used.
 6.1. Personal precautions, properties Personal precautions 6.2. Environmental precautions Environmental precautions 6.3. Methods and material for environmental precautions 	 Active equipment and emergency procedures Wear protective clothing as described in Section 8 of this safety data sheet. No action shall be taken without appropriate training or involving any personal risk. Evacuate area. Provide adequate ventilation. No smoking, sparks, flames or other sources of ignition near spillage. If aerosol cans are ruptured, care should be taken due to the rapid escape of the pressurised contents and propellant. Take precautionary measures against static discharges. Avoid discharge into drains or watercourses or onto the ground. Not considered to be a significant hazard due to the small quantities used. Containment and cleaning up Clear up spills immediately and dispose of waste safely. Eliminate all ignition sources if safe to do so. No smoking, sparks, flames or other sources of ignition near spillage. Under normal conditions of handling and storage, spillages from aerosol containers are unlikely. If aerosol cans are ruptured, care should be taken due to the rapid escape of the pressurised contents and propellant. Provide adequate ventilation. Small Spillages: Wipe up with an absorbent cloth and dispose of waste safely. Large Spillages: If the product is soluble in water, dilute the spillage with water and mop it up. Alternatively, or if it is not water-soluble, absorb the spillage with an inert, dry material and place it in a suitable waste disposal container. Wash thoroughly after dealing with a spillage. For waste disposal, see Section 13.

Reference to other sections For personal protection, see Section 8. See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards. For waste disposal, see Section 13.

SECTION 7: Handling and storage

7.1. Precautions for safe handl	ing
Usage precautions	Read and follow manufacturer's recommendations. Wear protective clothing as described in Section 8 of this safety data sheet. The product is flammable. Avoid exposing aerosol containers to high temperatures or direct sunlight. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Spray will evaporate and cool rapidly and may cause frostbite or cold burns if in contact with skin. Do not expose to temperatures exceeding 50°C/122°F. Avoid inhalation of vapours and spray/mists. Avoid contact with eyes.
Advice on general occupational hygiene	Good personal hygiene procedures should be implemented. Wash contaminated skin thoroughly after handling. Take off contaminated clothing and wash it before reuse. Do not eat, drink or smoke when using this product. Wash after use and before eating, smoking and using the toilet.
7.2. Conditions for safe storage	e, including any incompatibilities
Storage precautions	Store away from incompatible materials (see Section 10). Keep away from oxidising materials, heat and flames. Store in a cool and well-ventilated place. Protect from sunlight. Keep containers upright. Protect containers from damage. Do not expose to temperatures exceeding 50°C/122°F. Do not store near heat sources or expose to high temperatures. Store in accordance with national regulations.
Storage class	Chemical storage. Aerosol containers and lighters
7.3. Specific end use(s)	
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.

SECTION 8: Exposure controls/Personal protection

8.1. Control parameters

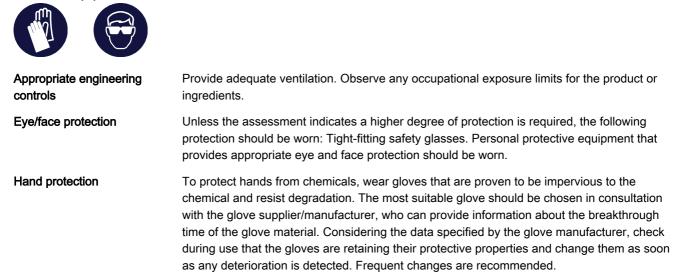

Occupational exposure limits

Petroleum gases, liquefied

Long-term exposure limit (8-hour TWA): WEL 1000 ppm 1750 mg/m³ Short-term exposure limit (15-minute): WEL 1250 ppm 2180 mg/m³ WEL = Workplace Exposure Limit.

8.2. Exposure controls

Protective equipment

Other skin and body protection	Wear appropriate clothing to prevent repeated or prolonged skin contact.
Hygiene measures	Wash after use and before eating, smoking and using the toilet. Do not eat, drink or smoke when using this product.
Respiratory protection	Ensure all respiratory protective equipment is suitable for its intended use and is 'UKCA'- marked. Check that the respirator fits tightly and the filter is changed regularly. Gas and combination filter cartridges suitable for intended use should be used. Full face mask respirators with replaceable filter cartridges suitable for intended use should be used. Half mask and quarter mask respirators with replaceable filter cartridges suitable for intended use should be used.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

	<u> </u>		
Appearance	Aerosol.		
Colour	Colourless.		
Odour	Almost odourless.		
Initial boiling point and range	-402°C (LPG)		
Flash point	-104°C (LPG)		
Upper/lower flammability or explosive limits	1.4 - 10.9%(V)(LPG)		
Auto-ignition temperature	365 °C / 689 °F (LPG)		
9.2. Other information			
Volatility	Highly volatile.		
SECTION 10: Stability and rea	activity		
10.1. Reactivity			
Reactivity	See the other subsections of this section for further details.		
10.2. Chemical stability			
Stability	Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions.		
10.3. Possibility of hazardous	reactions		
Possibility of hazardous reactions	The following materials may react strongly with the product: Oxidising agents.		
10.4. Conditions to avoid			
Conditions to avoid	Avoid exposing aerosol containers to high temperatures or direct sunlight. Pressurised container: may burst if heated Avoid heat, flames and other sources of ignition. Avoid the following conditions: Freezing.		
10.5. Incompatible materials			
Materials to avoid	No specific requirements are anticipated under normal conditions of use.		
10.6. Hazardous decompositio	on products		
Hazardous decomposition products	Does not decompose when used and stored as recommended. Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours.		

SAS50 BUTANE GAS CHARGER 200ML

SECTION 11: Toxicological information

11.1.	Information	on t	oxicologi	cal effects
	mormation	011 0	ONICOIOgi	Sar Checks

Toxicological effects	Information given is based on data of the components. The blended product has not been tested. No data is available for the mixture.		
Inhalation	Gas or vapour may irritate the respiratory system. May cause nausea, headache, dizziness and intoxication. Vapour may irritate respiratory system/lungs.		
Ingestion	Due to the physical nature of this product, it is unlikely that ingestion will occur. Ingestion may cause severe irritation of the mouth, the oesophagus and the gastrointestinal tract. May cause chemical burns in mouth, oesophagus and stomach. May cause discomfort if swallowed. May cause stomach pain or vomiting.		
Skin contact	Repeated exposure may cause skin dryness or cracking.		
Eye contact	May cause eye irritation. May cause serious eye damage.		
Route of exposure	Inhalation Ingestion Skin and/or eye contact		
SECTION 12: Ecological inform	nation		
12.1. Toxicity			
Toxicity	The product is not believed to present a hazard due to its physical nature.		
12.2. Persistence and degrada	bility		
Persistence and degradability	Expected to be readily biodegradable.		
12.3. Bioaccumulative potentia	<u>u</u>		
Bioaccumulative potential	Bioaccumulation is unlikely.		
12.4. Mobility in soil			
Mobility	The product contains volatile organic compounds (VOCs) which will evaporate easily from all surfaces.		
12.5. Results of PBT and vPvE	3 assessment		
Results of PBT and vPvB assessment	This substance is not classified as PBT or vPvB according to current UK criteria.		
12.6. Other adverse effects			
Other adverse effects	The product contains volatile organic compounds (VOCs) which have a photochemical ozone creation potential.		
SECTION 13: Disposal consid	erations		
13.1. Waste treatment method	<u>s</u>		
General information	The generation of waste should be minimised or avoided wherever possible. This material and its container must be disposed of in a safe way. When handling waste, the safety precautions applying to handling of the product should be considered. Dispose of waste product or used containers in accordance with local regulations		
Disposal methods	Do not empty into drains. Empty containers must not be punctured or incinerated because of the risk of an explosion. Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.		
Waste class	16-05-04		
SECTION 14: Transport inform	nation		

14.1. UN number

UN No. (ADR/RID)	1950
UN No. (IMDG)	1950
UN No. (ICAO)	1950
UN No. (ADN)	1950
14.2. UN proper shipping name	<u>e</u>
Proper shipping name (ADR/RID)	AEROSOLS
Proper shipping name (IMDG)	AEROSOLS
Proper shipping name (ICAO)	AEROSOLS
Proper shipping name (ADN)	AEROSOLS
14.3. Transport hazard class(es)	
ADR/RID class	2.1
ADR/RID classification code	5F
ADR/RID label	2.1
IMDG class	2.1
ICAO class/division	2.1
ADN class	2.1
Transport labels	

14.4. Packing group	
ADR/RID packing group	None
IMDG packing group	None
ICAO packing group	None
ADN packing group	None

14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant No.

14.6. Special precautions for user	
EmS	F-D, S-U
ADR transport category	2
Tunnel restriction code	(D)

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

National regulationsHealth and Safety at Work etc. Act 1974 (as amended).
The Carriage of Dangerous Goods and Use of Transportable Pressure Equipment
Regulations 2009 (SI 2009 No. 1348) (as amended) ["CDG 2009"].
EH40/2005 Workplace exposure limits.
The Aerosol Dispensers Regulations 2009 (SI 2009 No. 2824).

15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

Inventories

EU - EINECS/ELINCS

None of the ingredients are listed or exempt.

SECTION 16: Other information

Abbreviations and acronyms used in the safety data sheet	ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road.
-	ADN: European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways.
	RID: European Agreement concerning the International Carriage of Dangerous Goods by Rail. IATA: International Air Transport Association.
	ICAO: Technical Instructions for the Safe Transport of Dangerous Goods by Air. IMDG: International Maritime Dangerous Goods.
	CAS: Chemical Abstracts Service.
	ATE: Acute Toxicity Estimate.
	LC50: Lethal Concentration to 50 % of a test population.
	LD50: Lethal Dose to 50% of a test population (Median Lethal Dose). EC ₅₀ : 50% of maximal Effective Concentration.
	PBT: Persistent, Bioaccumulative and Toxic substance.
	vPvB: Very Persistent and Very Bioaccumulative.
Classification abbreviations and acronyms	Aerosol = Aerosol
Key literature references and sources for data	Source: European Chemicals Agency, http://echa.europa.eu/
Classification procedures according to SI 2019 No. 720	Aerosol 1 - H222, H229: : Expert judgement.
Revision date	28/01/2021
Revision	1
SDS number	3851
Hazard statements in full	H220 Extremely flammable gas. H222 Extremely flammable aerosol. H229 Pressurised container: may burst if heated. H280 Contains gas under pressure; may explode if heated.

This information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process. Such information is, to the best of the company's knowledge and belief, accurate and reliable as of the date indicated. However, no warranty, guarantee or representation is made to its accuracy, reliability or completeness. It is the user's responsibility to satisfy himself as to the suitability of such information for his own particular use.
