Version number: 1.1 Second Version: 12-Jan 22

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifier

Trade name Clinical Midi Disinfectant Wipes

Product number 1020 UKEU

**Registration number (REACH)**Not relevant (mixture).

CAS number not relevant (mixture)

# 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Relevant identified uses**Anti-Bacterial Surface Wipes

# 1.3 Details of the supplier of the safety data sheet

Uniwipe Europe Ltd

Spectrum House, South View,

Dales Ind Estate Peterhead AB42 3JF

Telephone: +44 (0) 3332419220

e-mail: sales@uniwipe.com

Website: www.uniwipe.com

**United Kingdom** 

# 1.4 Emergency telephone number

**Emergency information service** +44 (0) 7848453662 (24 h)

As above or nearest toxicological information centre.

# **SECTION 2: Hazards identification**

# 2.1 Classification of the substance or mixture

# Classification according to Regulation (EC) No 1272/2008 (CLP)

| Classification |  |          |                           |                       |  |  |  |  |
|----------------|--|----------|---------------------------|-----------------------|--|--|--|--|
| Section        | Hazard class   | Category | Hazard class and category | Hazard state-<br>ment |  |  |  |  |
| 4.1C           | hazardous to the aquatic environment -<br>chronic hazard | 3        | Aquatic Chronic 3         | H412                  |  |  |  |  |

For full text of abbreviations: see SECTION 16

# The most important adverse physicochemical, human health and environmental effects

Spillage and fire water can cause pollution of watercourses.

# 2.2 Label elements

United Kingdom: en Page: 1 / 20

# Labelling according to Regulation (EC) No 1272/2008 (CLP)

**Signal word** Not required.

**Pictograms** Not required.

**Hazard statements** 

**H412** Harmful to aquatic life with long lasting effects.

#### **Precautionary statements**

**P273** Avoid release to the environment.

**P501** Dispose of contents/container in accordance with local/regional/national/interna-

tional regulations.

# 2.3 Other hazards

There is no additional information.

#### Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

# **SECTION 3: Composition/information on ingredients**

# 3.1 Substances

Not relevant (mixture).

#### 3.2 Mixtures

#### **Description of the mixture**

# **Hazardous ingredients**

| Name of sub-<br>stance  | Identifier  | Wt%        | Classification acc.<br>to GHS  | Pictograms | Notes  | M-Factors                  |

#### Notes

GHS- Harmonised classification (the classification of the substance corresponds to the entry in the list according to

HC: 1272/2008/EC, Annex VI)

United Kingdom: en Page: 2 / 20

#### **SECTION 4: First aid measures**

# 4.1 Description of first aid measures

In the event of adverse reactions.

#### **General notes**

Self-protection of the first aider.

Take off immediately all contaminated clothing.

In all cases of doubt, or when symptoms persist, seek medical advice.

#### **Following inhalation**

Remove person to fresh air and keep comfortable for breathing.

In case of respiratory tract irritation, consult a physician.

#### Following skin contact

Rinse skin with water/shower.

If skin irritation occurs: Get medical advice/attention.

#### Following eye contact

Rinse cautiously with water for several minutes.

Remove contact lenses, if present and easy to do. Continue rinsing.

#### **Following ingestion**

Rinse mouth. Do not induce vomiting.

In case of accident or if you feel unwell, seek medical advice immediately (show the label or safety data sheet where possible).

#### Notes for the doctor

None.

# 4.2 Most important symptoms and effects, both acute and delayed

These information are not available.

#### 4.3 Indication of any immediate medical attention and special treatment needed

None.

# **SECTION 5: Firefighting measures**

#### 5.1 Extinguishing media

#### Suitable extinguishing media

water spray, carbon dioxide (CO2), Co-ordinate firefighting measures to the fire surroundings

# Unsuitable extinguishing media

water jet

#### 5.2 Special hazards arising from the substance or mixture

Hazardous decomposition products: Section 10.

#### **Hazardous combustion products**

nitrogen oxides (NOx)

United Kingdom: en Page: 3 / 20

# 5.3 Advice for firefighters

In case of fire and/or explosion do not breathe fumes.

Co-ordinate firefighting measures to the fire surroundings.

Do not allow firefighting water to enter drains or water courses.

Collect contaminated firefighting water separately.

Fight fire with normal precautions from a reasonable distance.

# Special protective equipment for firefighters

use suitable breathing apparatus

#### **SECTION 6: Accidental release measures**

# 6.1 Personal precautions, protective equipment and emergency procedures

#### For non-emergency personnel

Remove persons to safety.

Ventilate affected area.

#### For emergency responders

Wear breathing apparatus if exposed to vapours/dust/spray/gases.

# 6.2 Environmental precautions

Keep away from drains, surface and ground water.

Retain contaminated washing water and dispose of it.

If substance has entered a water course or sewer, inform the responsible authority.

# 6.3 Methods and material for containment and cleaning up

# Advice on how to clean up a spill

Collect spillage.

Absorbent material (e.g. sand, diatomaceous earth, acid binder, universal binder, sawdust, etc.).

#### **Appropriate containment techniques**

Use of adsorbent materials.

#### Other information relating to spills and releases

Place in appropriate containers for disposal.

Ventilate affected area.

#### 6.4 Reference to other sections

Hazardous combustion products: see section 5.

Personal protective equipment: see section 8.

Incompatible materials: see section 10.

Disposal considerations: see section 13.

United Kingdom: en Page: 4 / 20

# **SECTION 7: Handling and storage**

# 7.1 Precautions for safe handling

Avoid contact with eyes.

#### Measures to prevent fire as well as aerosol and dust generation

Use local and general ventilation.

# Specific notes/details

None.

#### Measures to protect the environment

Avoid release to the environment.

#### Advice on general occupational hygiene

Do not eat, drink and smoke in work areas.

Wash hands after use.

Remove contaminated clothing and protective equipment before entering eating areas.

# 7.2 Conditions for safe storage, including any incompatibilities

# Flammability hazards

None.

# **Incompatible substances or mixtures**

Incompatible materials: see section 10.

# Protect against external exposure, such as

heat, frost, UV-radiation/sunlight

#### **Consideration of other advice**

These information are not available.

# **Ventilation requirements**

Provision of sufficient ventilation.

#### Specific designs for storage rooms or vessels

Keep container tightly closed and in a well-ventilated place.

Keep cool.

Protect against UV-radiation/sunlight.

#### **Packaging compatibilities**

Keep only in original container.

# 7.3 Specific end use(s)

No information available.

United Kingdom: en Page: 5 / 20

# **SECTION 8: Exposure controls/personal protection**

# 8.1 Control parameters

# 8.2 Exposure controls

# **Appropriate engineering controls**

General ventilation.

# Individual protection measures (personal protective equipment)

# **Eye/face protection**

Not required: Textile fabrics impregnated, Exposure route is unlikely.

# **Hand protection**

Not required: Textile fabrics impregnated,

# **Respiratory protection**

In case of inadequate ventilation wear respiratory protection.

# **Environmental exposure controls**

Use appropriate container to avoid environmental contamination.

Keep away from drains, surface and ground water.

United Kingdom: en Page: 7 / 20

# **SECTION 9: Physical and chemical properties**

# 9.1 Information on basic physical and chemical properties

#### **Appearance**

Physical state Liquid

Form Liquid on inert carrier material

Colour These information are not available

Odour These information are not available

Odour threshold These information are not available

Other safety parameters

pH (value) 5.5 to 6.5

Melting point/freezing point

These information are not available

Initial boiling point and boiling range

These information are not available

Flash point Not applicable

Evaporation rate These information are not available

Flammability (solid, gas)

Not relevant

(fluid)

**Explosive limits** 

Lower explosion limit (LEL)

These information are not available

Upper explosion limit (UEL)

These information are not available

Vapour pressure These information are not available

Density These information are not available

Vapour density These information are not available

Relative density These information are not available

Solubility(ies)

Water solubility Not miscible in any proportion

**Partition coefficient** 

n-octanol/water (log KOW)

These information are not available

Auto-ignition temperature These information are not available

Relative self-ignition temperature for solids Not relevant

(Fluid)

Decomposition temperature These information are not available

**Viscosity** 

United Kingdom: en Page: 8 / 20

Kinematic viscosity

These information are not available

Dynamic viscosity These information are not available

Explosive properties Not explosive

Oxidising properties Shall not be classified as oxidising

#### 9.2 Other information

None

# **SECTION 10: Stability and reactivity**

# 10.1 Reactivity

This material is not reactive under normal ambient conditions.

# 10.2 Chemical stability

The material is stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

# 10.3 Possibility of hazardous reactions

No known hazardous reactions.

#### 10.4 Conditions to avoid

There are no specific conditions known which have to be avoided.

High temperatures (>200 °C/ 392 °F), UV-radiation/sunlight.

# 10.5 Incompatible materials

strong oxidiser, anionic materials

#### 10.6 Hazardous decomposition products

Reasonably anticipated hazardous decomposition products produced as a result of use, storage, spill and heating are not known.

Hazardous combustion products: see section 5.

# **SECTION 11: Toxicological information**

# 11.1 Information on toxicological effects

#### **Classification procedure**

If not otherwise specified the classification is based on:

Ingredients of the mixture (additivity formula).

#### Classification according to GHS (1272/2008/EC, CLP)

# **Acute toxicity**

Classification could not be established because:

Data are lacking, inconclusive, or conclusive but not sufficient for classification.

Test data are not available for the complete mixture.

# Acute toxicity of components of the mixture

| Name of substance   | CAS No     | Exposure<br>route | Endpoint | Value                               | Species     |
|---|------------|-------------------|----------|-------------------------------------|-------------|
| quaternary ammonium com-<br>pounds, benzyl-C12-16-al-<br>kyldimethyl, chlorides | 68424-85-1 | oral              | LD50     | 795 <sup>mg</sup> / <sub>kg</sub>   | rat         |
| quaternary ammonium com-<br>pounds, benzyl-C12-16-al-<br>kyldimethyl, chlorides | 68424-85-1 | dermal            | LD50     | 3,412 <sup>mg</sup> / <sub>kg</sub> | rabbit      |
| didecyldimethylammonium chlor-<br>ide   | 7173-51-5  | oral              | LD50     | 264 <sup>mg</sup> / <sub>kg</sub>   | rat, female |
| didecyldimethylammonium chlor-<br>ide   | 7173-51-5  | dermal            | LD50     | 3,342 <sup>mg</sup> / <sub>kg</sub> | rabbit      |

#### Skin corrosion/irritation

Classification could not be established because:

Data are lacking, inconclusive, or conclusive but not sufficient for classification.

#### Serious eye damage/eye irritation

Classification could not be established because:

Data are lacking, inconclusive, or conclusive but not sufficient for classification.

#### Respiratory or skin sensitisation

#### Skin sensitisation

Classification could not be established because:

Data are lacking, inconclusive, or conclusive but not sufficient for classification.

#### **Respiratory sensitisation**

Classification could not be established because:

Data are lacking, inconclusive, or conclusive but not sufficient for classification.

#### Germ cell mutagenicity

Classification could not be established because:

Data are lacking, inconclusive, or conclusive but not sufficient for classification.

#### Carcinogenicity

Classification could not be established because:

Data are lacking, inconclusive, or conclusive but not sufficient for classification.

#### Reproductive toxicity

Classification could not be established because:

Data are lacking, inconclusive, or conclusive but not sufficient for classification.

# Specific target organ toxicity - single exposure

Classification could not be established because:

Data are lacking, inconclusive, or conclusive but not sufficient for classification.

United Kingdom: en Page: 10 / 20

# Specific target organ toxicity - repeated exposure

Classification could not be established because:

Data are lacking, inconclusive, or conclusive but not sufficient for classification.

# **Aspiration hazard**

Shall not be classified as presenting an aspiration hazard.

# **SECTION 12: Ecological information**

# 12.1 Toxicity

# Aquatic toxicity (acute)

Test data are not available for the complete mixture.

# Aquatic toxicity (acute) of components of the mixture

| Name of substance  | CAS No     | Endpoint | Value                              | Species                                      | Exposure<br>time |

| didecyldimethylammonium chloride   | 7173-51-5  |     | 2.59 (pH value: 7, 20 °C) |

# 12.4 Mobility in soil

No data available.

#### 12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

# 12.6 Other adverse effects

Data are not available.

#### Remarks

Wassergefährdungsklasse, WGK (water hazard class): 2

# **SECTION 13: Disposal considerations**

#### 13.1 Waste treatment methods

Dispose of contents/container in accordance with local/regional/national/international regulations.

# Sewage disposal-relevant information

Do not empty into drains.

# Waste treatment of containers/packagings

Handle contaminated packages in the same way as the substance itself.

# **Remarks**

Please consider the relevant national or regional provisions.

# **SECTION 14: Transport information**

| 14.1 | UN number  | Not subject to transport regulations |
|------|--|--------------------------------------|
| 14.2 | UN proper shipping name  | -                                    |

# **SECTION 15: Regulatory information**

# 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

# Relevant provisions of the European Union (EU)

# Restrictions according to REACH, Annex XVII

| Dangerous substances with restrictions (REACH, Annex XVII) |  |        |             |  |
|--|--|--------|-------------|--|
| Name of substance  | Name acc. to inventory   | CAS No | Restriction |  |
| Clinical Midi Disinfectant Wipes                           | this product meets the criteria for classi-<br>fication in accordance with Regulation<br>No 1272/2008/EC |        | R3          |  |

#### Legend

- R3
- 1. Shall not be used in:
- ornamental articles intended to produce light or colour effects by means of different phases, for example in ornamental lamps and ashtrays,
- tricks and jokes,
- games for one or more participants, or any article intended to be used as such, even with ornamental aspects,
- 2. Articles not complying with paragraph 1 shall not be placed on the market.
- 3. Shall not be placed on the market if they contain a colouring agent, unless required for fiscal reasons, or perfume, or both, if they:
- can be used as fuel in decorative oil lamps for supply to the general public, and,
- present an aspiration hazard and are labelled with R65 or H304,
- 4. Decorative oil lamps for supply to the general public shall not be placed on the market unless they conform to the European Standard on Decorative oil lamps (EN 14059) adopted by the European Committee for Standardisation (CEN).
- 5. Without prejudice to the implementation of other Community provisions relating to the classification, packaging and labelling of dangerous substances and mixtures, suppliers shall ensure, before the placing on the market, that the following requirements are met:
- (a) lamp oils, labelled with R65 or H304, intended for supply to the general public are visibly, legibly and indelibly marked as follows: 'Keep lamps filled with this liquid out of the reach of children'; and, by 1 December 2010, 'Just a sip of lamp oil or even sucking the wick of lamps may lead to life-threatening lung damage'; (b) grill lighter fluids, labelled with R65 or H304, intended for supply to the general public are legibly and indelibly marked by 1 December 2010 as follows: 'Just a sip of grill lighter may lead to life threatening lung damage';
- (c) lamp oils and grill lighters, labelled with R65 or H304, intended for supply to the general public are packaged in black opaque containers not exceeding 1 litre by 1 December 2010.
- 6. No later than 1 June 2014, the Commission shall request the European Chemicals Agency to prepare a dossier, in accordance with Article 69 of the present Regulation with a view to ban, if appropriate, grill lighter fluids and fuel for decorative lamps, labelled R65 or H304, intended for supply to the general public.
- 7. Natural or legal persons placing on the market for the first time lamp oils and grill lighter fluids, labelled with R65 or H304, shall by 1 December 2011, and annually thereafter, provide data on alternatives to lamp oils and grill lighter fluids labelled R65 or H304 to the competent authority in the Member State concerned. Member States shall make those data available to the Commission.

#### List of substances subject to authorisation (REACH, Annex XIV) / SVHC - candidate list

None of the ingredients are listed.

#### Seveso Directive

Not assigned.

| Skin Corr.  | Corrosive to skin  |
| Skin Irrit. | Irritant to skin   |
| SVHC        | Substance of Very High Concern   |
| vPvB        | Very Persistent and very Bioaccumulative   |

# Key literature references and sources for data

Regulation (EC) No 1272/2008 on classification, labelling and packaging of substances and mixtures. Regulation (EC) No. 1907/2006 (REACH), amended by 2015/830/EU.

Transport of dangerous goods by road, rail and inland waterway (ADR/RID/ADN). International Maritime Dangerous Goods Code (IMDG).

Dangerous Goods Regulations (DGR) for the air transport (IATA).

United Kingdom: en Page: 19 / 20

# **Classification procedure**

Physical and chemical properties.

Health hazards.

Environmental hazards.

The method for classification of the mixture is based on ingredients of the mixture (additivity formula).

# List of relevant phrases (code and full text as stated in chapter 2 and 3)

| Code | Text  |
|------|---|
| H301 | Toxic if swallowed.                                   |
| H302 | Harmful if swallowed.                                 |
| H314 | Causes severe skin burns and eye damage.              |
| H318 | Causes serious eye damage.                            |
| H400 | Very toxic to aquatic life.                           |
| H410 | Very toxic to aquatic life with long lasting effects. |
| H411 | Toxic to aquatic life with long lasting effects.      |
| H412 | Harmful to aquatic life with long lasting effects.    |
